Advertising networks follow your online activities over time and across different sites or other online services by collecting device and usage data through automated means, including through the use of cookies. These technologies may recognize you across the different devices you use, such as a desktop or laptop computer, smartphone or tablet. While some internet browsers offer a "do not track" or "DNT" option that lets you tell websites that you do not want to have your online activities tracked, these features are not yet uniform and there is no common standard that has been adopted by industry groups, technology companies or regulators.

Therefore, we do not currently commit to responding to browsers' DNT signals with respect to our websites. Vincere takes privacy and meaningful choice seriously and will make efforts to continue to monitor developments around DNT browser technology and the implementation of a standard.
